# Evidence-Based Medicine

*Editors: B Haynes & D Sackett*

With 2 million new papers published each year how can you be sure you read all the papers essential for your daily practice, and how can you be sure of the scientific soundness of what you do read? One answer to this dilemma is practising evidence based medicine, basing clinical decisions on the best available scientific evidence.

To meet this need the BMJ Publishing Group together with the American College of Physicians is launching a new journal - *Evidence - Based Medicine*. This new journal is a development of the ACP Journal Club.

Published bi-monthly *Evidence - Based Medicine*, will survey a wide range of international medical journals (at least 50) to identify the key research papers that are scientifically valid and relevant to practice.

**Launching in September 1995,  
*Evidence-Based Medicine* will:**

- use scientific criteria to select the abstracts from the most important papers from the world's leading journals
- select only those papers which have a direct message for practice
- provide commentaries on the abstracts which will make clear the importance of the papers
- supply educational material to teach you about evidence based medicine
- cover all medical advances that are really important
- cover internal medicine, and the major specialties, including general surgery, paediatrics, obstetrics & gynaecology, psychiatry, general practice, anaesthesiology and ophthalmology.

# How to do it even better!

The highly popular *How To Do It* series is a collection of expert advice on an enormous range of topics that doctors need to know about that are not necessarily covered in formal training.

All three volumes have now been completely updated, with new chapters, and a user friendly format where subjects are grouped into themes. Whether you want to chair a committee, improve your counselling skills with cancer patients, or even survive a formal dinner, your questions will be answered in these entertaining and practical guides.

A must for all doctors, from students through to the retired.
