

THE MOLECULAR REVOLUTION...

ABC OF CLINICAL GENETICS (Second edition)

"There is now no excuse for anyone to claim that he (she) does not understand clinical genetics."
Medical Journal of Australia

- Fully revised and updated
- Simply explains genetic mechanisms and analysis
- Comprehensive clinical information for all advising patients on genetic disorders.

Topics include:

Inheritance, estimation of risk, and detection of carriers; Chromosomal disorders; Genetics of common disorders; Genetics of cancer; DNA analysis.

ISBN 0 7279 0846 4 84 pages June 1994

UK £13.95; Overseas £15.00 (BMA members £12.95; £14.00)

BASIC MOLECULAR AND CELL BIOLOGY (Second edition)

"a little gem in its field... a must for every student or doctor who feels that a proper understanding of molecular biology is always just beyond their grasp."
Trends in Genetics

- A clear guide to understanding molecular biology and its relevance in medicine
- Leaders in the field cover the latest advances in techniques and insight into future developments.

Topics include:

An introduction to cells; The polymerase chain reaction; Gene regulation; Sorting signals and cellular membranes; Genes and cancer.

ISBN 0 7279 0772 7 216 pages 1993

UK £8.95; Overseas £11.00 (BMA members £8.45; £10.50)

Statistically speaking, you're better off with a BMJ book...

NEW REVISED EDITION

Medical Statistics on Personal Computers

RA Brown, J Swanson Beck

How do you get the best out of the software available for analysing statistical data on PC's? This practical guide has been completely revised and updated and includes new chapters on survival analysis, statistical power calculations, writing up statistical analyses for medical papers, and useful notes on packages available.

UK £10.95; Overseas £13.00
(BMA members £9.95; £12.00)
160 pages Second edition April 1994

Statistics in Practice

Sheila M Gore, Douglas G Altman

This authoritative book clearly and simply explains how to design studies, apply statistical techniques, and interpret studies using statistics.

UK £9.95; Overseas £11.00
(BMA members £7.95; £10.00) 107 pages 1982

Statistics at Square One

T D V Swinscow

The classic "beginner's guide", providing step by step instruction on the tools of the statistician such as: standard deviation, X² tests, non-parametric tests, and correlation.

UK £4.95; Overseas £6.00
(BMA members £4.45; £5.50)
94 pages Eighth edition 1983

Statistics with Confidence

Martin J Gardner,
Douglas G Altman

For everyone using statistical methods to present their findings, this book gives the reasons for using confidence intervals, followed by detailed methods of calculation, including numerous worked examples and specially compiled tables.

UK £9.95; Overseas £11.00 (BMA members £8.95; £10.00)
156 pages 1989

Confidence Interval Analysis (CIA)

Martin J Gardner,
Stephen B Gardner, Paul D Winter

This microcomputer disk with manual takes the sweat out of calculating confidence intervals. The program can be used alone or with *Statistics with Confidence*.

Software is available for IBM compatibles on either 5 1/4 or a 3 1/2 inch disk.

UK £65.00 Educational establishments, research institutes, and the NHS: £45.95 (inc. VAT) 82 pages 1989

*Now you can find the information
you really need...*

Evidence-Based Medicine

Editors: B Haynes & D Sackett

With 2 million new papers published each year how can you be sure you read all the papers essential for your daily practice, and how can you be sure of the scientific soundness of what you do read? One answer to this dilemma is practising evidence based medicine, basing clinical decisions on the best available scientific evidence.

To meet this need the BMJ Publishing Group together with the American College of Physicians is launching a new journal - *Evidence - Based Medicine*. This new journal is a development of the ACP Journal Club.

Published bi-monthly *Evidence - Based Medicine*, will survey a wide range of international medical journals (at least 50) to identify the key research papers that are scientifically valid and relevant to practice.

**Launching in September 1995,
Evidence-Based Medicine will:**

- use scientific criteria to select the abstracts from the most important papers from the world's leading journals
- select only those papers which have a direct message for practice
- provide commentaries on the abstracts which will make clear the importance of the papers
- supply educational material to teach you about evidence based medicine
- cover all medical advances that are really important
- cover internal medicine, and the major specialties, including general surgery, paediatrics, obstetrics & gynaecology, psychiatry, general practice, anaesthesiology and ophthalmology.
