

# CLINICAL MOLECULAR PATHOLOGY

## Commentary

M245 Counting apoptosis—why and how? *David J Harrison*

## Reviews

M247 Role of free radicals and antioxidants in the pathogenesis of the inflammatory periodontal diseases *I L C Chapple*

M256 Tumour infiltrating lymphocytes: insights into tumour immunology and potential therapeutic implications *K F Yoong, D H Adams*

## Papers

M268 Correlation between apoptosis, proliferation and bcl-2 expression in malignant non-Hodgkin's lymphoma *S W Kiberu, J H Pringle, S Sobolewski, P Murphy, I Lauder*

M273 Simple method for pretreatment of tissue sections for the detection of apoptosis by in situ end-labelling and in situ nick translation *S Panchalingam, G M Reynolds, D A Lammas, D C Rowlands, D S Kumar*

M278 p53 protein expression in non-Hodgkin's lymphoma. Comparative study with the wild type p53 induced proteins mdm2 and p21/waf1 *M Tzeng, Ch Kouvidou, I Panayiotides, K Stefanaki, D Rontogianni, E Zois, K Koutsoubi, G Eliopoulos, G Delides, P Kanavaros*

M283 Assessment of intra-tumoral karyotypic heterogeneity by interphase cytogenetics in paraffin wax sections *S A Southern, C S Herrington*

M290 Mutations in the Epstein-Barr virus latent membrane protein-1 (BMLF-1) gene in spontaneous lymphoblastoid cell lines: effect on in vitro transformation associated parameters and tumorigenicity in SCID and mice *K Sandvej, M Munch, S Hamilton-Dutoit*

M298 Activity of phosphoglycerate mutase and its isoenzymes in serum after myocardial infarction *N Durany, E Carballo, J Joseph, J L Bedini, R Bartrons, A M Ballesta, J Carerras*

M301 Amphotericin B induced abnormalities in human platelets *K B Pastoria, N E Brownson, D A Terle, B J Poindexter*

## Short reports

M308 Rapid differential diagnosis of myxoid liposarcoma by fluorescence hybridisation on cytological preparations *A Mezzelani, G Sozzi, M A Pileri, S Pilotti*

M310 SSCP analysis of paraffin wax embedded tissues in a family with an atypical form of Fabry disease *K M Madsen, L Hasholt, J Berger, S A Sørensen*

M312 Novel primer specific false terminations during DNA sequencing reaction: danger of inaccuracy of mutation analysis in molecular diagnostics *R A Booth, A J Churchill, A F Markham*
