## List of assessors

---

The members of the Editorial Board are indebted to the following for their help with the assessment of papers during the year to September 1996.

D Adams	J Darnton	D W G Jones	S Read
J Adu	T Diss	N Kalsheker	P Rose
S Afford	C du Boulay	D Lamb	S D Shapiro
M Allison	C Edwards	I Lampert	N A Shepherd
P Andrews	G Evan	J J O'Leary	G Stamp
J Ayres	C Fegan	S Lee	G R Standen
J P A Baak	C G Fink	F Lewis	D Tarin
P Barber	C D M Fletcher	S Lucas	P Tigie
B Boullier	J Franklin	M R Millar	J Underwood
T J Bull	J Gordon	G J Morgan	R Walker
C K Campbell	B Guillick	P G Murray	J Wilde
M Carey	P Hesleton	J Newman	B Wilkins
T J Coleman	D O Ho-Yen	J Oates	P A Wright
C Constandinou	P G Isaacson	B Perbal	M H Zheng

## Volume 49 • Subject index

- Activated protein C resistance**, An assessment of the comparative utility of functional and molecular level analyses in the investigation of patients with thrombophilia, **M223**
- Adenocarcinoma**, Establishment and characterisation of two cell lines derived from a primary adenocarcinoma of the duodenum, **M33**
- Adhesion molecules**, Lymphocytes, cytokines and adhesion molecules in chronic graft versus host disease, **M225**
- AgNOR**  
 AgNOR clusters as a parameter of cell kinetics in chronic lymphocytic leukaemia, **M357**  
 AgNOR quantity in needle biopsy specimens of prostatic adenocarcinomas: correlation with proliferation state, Gleason score, clinical stage, and DNA content, **M209**  
 Interphase ribosomal RNA cistron staining in thyroid epithelial cells in Grave's disease, Hashimoto's thyroiditis and benign and malignant tumours of the thyroid gland, **M240**
- Alternative splicing**, Increased expression of CD44v6 in endocrine pancreatic tumours but not in midgut carcinoid tumours, **M203**
- Alzheimer's disease**, Significantly reduced expression of the proteoglycan decorin in Alzheimer's disease fibroblasts, **M351**
- Amphotericin B**, Amphotericin B induced abnormalities in human platelets, **M301**
- Amplification refractory mutation system**, Development of a rapid DNA screening procedure for the Factor V Leiden mutation, **M361**
- Antioxidants**, Role of free radicals and antioxidants in the pathogenesis of the inflammatory periodontal diseases: *review*, **M247**
- Apoptosis**  
 Correlation between apoptosis, proliferation and bcl-2 expression in malignant non-Hodgkin's lymphoma, **M268**  
 Counting apoptosis - why and how? *commentary*, **M245**  
 Counting of apoptotic cells: a methodological study in invasive breast cancer, **M214**  
 Simple method for pretreatment of tissue sections for the detection of apoptosis by in situ end-labelling and in situ nick translation, **M273**
- ARMS**, Development of a rapid DNA screening procedure for the Factor V Leiden mutation, **M361**
- Artefacts**, Direct in situ nucleic acid amplification: control of artefact and use of labelled primers, **M345**
- Aryl hydrocarbon receptor gene**, Complete structural characterisation of the human aryl hydrocarbon receptor gene, **M12**
- Bacterial infections**, Diagnosis, epidemiology and pathogenesis of bacterial infections in the molecular era: *leader*, **M1**
- Bcl-2**  
 Correlation between apoptosis, proliferation and bcl-2 expression in malignant non-Hodgkin's lymphoma, **M268**  
 Genes mediating programmed cell death: an immunohistochemical study of bcl-2, c-myc and p53 expression in colorectal neoplasia, **M151**
- Biotinylated tyramine**, Human papilloma virus detection by in situ hybridisation signal amplification based on biotinylated tyramine deposition, **M340**
- Book reviews**  
 Chen ISY, Koprowski H, Srinivasan A, Vogt PK, *editors*. Transacting functions of human retroviruses. Vol 193 in series Current topics in microbiology and immunology, **M183**  
 Dunn MJ. Gel electrophoresis: proteins. Series: Introduction to biotechniques, **M182**  
 Freireich EJ, Stass SA, *editors*. Molecular basis of oncology, **M183**  
 Grayson L. Scientific deception, **M368**  
 Griffiths GM, Tschopp J, *editors*. Pathways for cytolysis, **M183**  
 Hamilton PW, Allen DC, *editors*. Quantitative clinical pathology, **M64**  
 Hogg N, Hart I, *guest editors*; Sidebottom E *series editor*. Cell adhesion and cancer. Vol 24 in Cancer Surveys series, **M64**  
 Sedlacek H-H, Moroy T. Immune reactions, **M124**  
 Sirica AE, *editor*. Cellular and molecular pathogenesis, **M183**  
 Strike PW. Measurement in laboratory medicine. A primer on control and interpretation, **M124**  
 Thomas, NSB, *editor*. Apoptosis and cell cycle control in cancer. Vol 3 in series UCL Molecular Pathology, **M124**  
 van Eden W, Young DB, *editors*. Stress proteins in medicine, **M368**  
 Ward PA, Fantone JC, *editors*. Adhesion molecules and the lung. Vol 89 in series Lung biology in health and disease, **M182**
- Borrelia burgdorferi**, Improved serodiagnosis of Lyme disease, **M80**
- Brain tumours**, Differential expression of novH and CTGF in human glioma cell lines, **M91**
- Breast cancer (carcinoma)**  
 Counting of apoptotic cells: a methodological study in invasive breast cancer, **M214**  
 Cyclin D1 amplification and expression in human breast carcinoma: correlation with histological prognostic markers and oestrogen receptor expression, **M46**  
 Relation between deletion of chromosome 1p36 and DNA ploidy in breast carcinoma: an interphase cytogenetic study, **M98**
- c-erbB3 protein**, c-erbB3 protein expression in ovarian cancer, **M199**
- c-myc**, Genes mediating programmed cell death: an immunohistochemical study of bcl-2, c-myc and p53 expression in colorectal neoplasia, **M151**
- Calprotectin**, Nomenclature for proteins: is calprotectin a proper name for the elusive myelomonocytic protein? *leader*, **M74**
- Cancer biology**, Protein glycosylation in cancer biology: an overview: *leader*, **M126**
- Candida**, Identification of *Candida* species in formalin fixed, paraffin wax embedded oral mucosa by sequencing of ribosomal DNA, **M23**
- Cardiac disease**, SSCP analysis of paraffin wax embedded tissues in a family with an atypical form of Fabry disease, **M310**
- Cartilage**, Inhibitors of collagenase but not of gelatinase reduce cartilage explant proteoglycan breakdown despite only low levels of matrix metalloproteinase activity, **M331**
- Castleman's disease**, Lymphotropic herpes virus (EBV, HHV-6, HHV-8) DNA sequences in HIV negative Castleman's disease, **M232**
- CD34**, Detection of clonal immunoglobulin gene rearrangements in the peripheral blood progenitor cells of patients with multiple myeloma: the potential role of purging with CD34 positive selection, **M112**
- CD44**  
 Differential expression of CD44 variants among meningioma subtypes, **M140**  
 Distribution of CD44 messenger RNA in archival paraffin wax embedded tumours and normal tissues viewed by in situ hybridisation, **M147**  
 Increased expression of CD44v6 in endocrine pancreatic tumours but not in midgut carcinoid tumours, **M203**
- cDNA**, Complete structural characterisation of the human aryl hydrocarbon receptor gene, **M12**
- Cell adhesion**  
 Cell adhesion molecules: *review*, **M321**  
 Significantly reduced expression of the proteoglycan decorin in Alzheimer's disease fibroblasts, **M351**
- Cell death**, Genes mediating programmed cell death: an immunohistochemical study of bcl-2, c-myc and p53 expression in colorectal neoplasia, **M151**
- Cell differentiation**, Differential expression of CD44 variants among meningioma subtypes, **M140**
- Cell kinetics**, AgNOR clusters as a parameter of cell kinetics in chronic lymphocytic leukaemia, **M357**
- Cell lines**  
 Effect of Wnt-1 antisense RNA on the outgrowth of a mammary adenocarcinoma cell line expressing that oncogene, **M166**  
 Establishment and characterisation of two cell lines derived from a primary adenocarcinoma of the duodenum, **M33**
- Cell proliferation**  
 AgNOR quantity in needle biopsy specimens of prostatic adenocarcinomas: correlation with proliferation state, Gleason score, clinical stage, and DNA content, **M209**  
 Correlation between apoptosis, proliferation and bcl-2 expression in malignant non-Hodgkin's lymphoma, **M268**
- Cervical carcinoma**, Assessment of intra-tumoral karyotypic heterogeneity by interphase cytogenetics in paraffin wax sections, **M283**
- Cervix uteri**, Human papilloma virus detection by in situ hybridisation signal amplification based on biotinylated tyramine deposition, **M340**
- Cholecystokinin**, Gastrointestinal hormone mRNA expression in human colonic adenocarcinomas, hepatic metastases and cell lines, **M159**
- Chromosomal metaphase preparations**, Rapid differential diagnosis of myxoid liposarcoma by fluorescence in situ hybridisation on cytological preparations, **M308**
- Chromosome**, Assessment of intra-tumoral karyotypic heterogeneity by interphase cytogenetics in paraffin wax sections, **M283**
- Chromosome abnormalities**  
 Accumulation of allelic losses on chromosome 10 in human gliomas at recurrence, **M218**  
 Karyotypic and molecular abnormalities in chronic lymphocytic leukaemia: *review*, **M185**  
 Rapid differential diagnosis of myxoid liposarcoma by fluorescence in situ hybridisation on cytological preparations, **M308**  
 Relation between deletion of chromosome 1p36 and DNA ploidy in breast carcinoma: an interphase cytogenetic study, **M98**
- Chronic lymphocytic leukaemia**  
 AgNOR clusters as a parameter of cell kinetics in chronic

- lymphocytic leukaemia, **M357**  
 Karyotypic and molecular abnormalities in chronic lymphocytic leukaemia: *review*, **M185**
- Collagen type III**, Expression of type III collagen mRNA in renal biopsy specimens of patients with idiopathic membranous glomerulonephritis, **M40**
- Colon cancer**, The genetics of inherited colon cancer: *leader*, **M65**
- Colonic adenocarcinoma**, Gastrointestinal hormone mRNA expression in human colonic adenocarcinomas, hepatic metastases and cell lines, **M159**
- Colorectal cancer (carcinoma)**  
 Genes mediating programmed cell death: an immunohistochemical study of bcl-2, c-myc and p53 expression in colorectal neoplasia, **M151**  
 p53 gene alterations and protein accumulation in colorectal cancer, **M85**
- Craniopharyngioma**, Insulin-like growth factors and IGF binding proteins in cyst fluid from patients with craniopharyngioma prior to intracavitary irradiation with <sup>90</sup>Yttrium and thereafter, **M51**
- CTGF**, Differential expression of novH and CTGF in human glioma cell lines, **M91**
- Cyclin D1 gene**, Cyclin D1 amplification and expression in human breast carcinoma: correlation with histological prognostic markers and oestrogen receptor expression, **M46**
- Cytokine mRNA**, Use of proteinase K for RT-PCR of cytokine mRNA in formalin fixed tissue, **M364**
- Cytokines**, Lymphocytes, cytokines and adhesion molecules in chronic graft versus host disease, **M225**
- Cytometry**, Principles of ploidy analysis by static cytometry, **M104**
- Decorin**, Significantly reduced expression of the proteoglycan decorin in Alzheimer's disease fibroblasts, **M351**
- Deletion**, Relation between deletion of chromosome 1p36 and DNA ploidy in breast carcinoma: an interphase cytogenetic study, **M98**
- DNA content**, AgNOR quantity in needle biopsy specimens of prostatic adenocarcinomas: correlation with proliferation state, Gleason score, clinical stage, and DNA content, **M209**
- DNA extraction**  
 Nested PCR-SSCP assay for the detection of p53 mutations in paraffin wax embedded bone tumours: improvement of sensitivity and fidelity, **M176**  
 Rapid and efficient method for DNA extraction from paraffin wax embedded tissue for PCR amplification, **M179**
- DNA ploidy**  
 Principles of ploidy analysis by static cytometry, **M104**  
 Relation between deletion of chromosome 1p36 and DNA ploidy in breast carcinoma: an interphase cytogenetic study, **M98**
- DNA polymorphism analysis**, Use of non-radioactive detection in SSCP, direct DNA sequencing and LOH analysis, **M118**
- DNA sequencing**  
 Novel primer specific false terminations during DNA sequencing reactions: danger of inaccuracy of mutation analysis in molecular diagnostics, **M312**  
 Use of non-radioactive detection in SSCP, direct DNA sequencing and LOH analysis, **M118**
- Duodenum**, Establishment and characterisation of two cell lines derived from a primary adenocarcinoma of the duodenum, **M33**
- ELISA**, Improved serodiagnosis of Lyme disease, **M80**
- Endocrine pancreatic tumours**, Increased expression of CD44v6 in endocrine pancreatic tumours but not in midgut carcinoid tumours, **M203**
- Entamoeba histolytica**, The invasiveness of *Entamoeba histolytica* - a continuing enigma, **M192**
- Epstein-Barr virus**  
 Lymphotropic herpes virus (EBV, HHV-6, HHV-8) DNA sequences in HIV negative Castleman's disease, **M232**  
 Mutations in the Epstein-Barr latent membrane protein-1 (BNLF-1) gene in spontaneous lymphoblastoid cell lines: effect on in vitro transformation associated parameters and tumorigenicity in SCID and nude mice, **M290**
- Fabry disease**, SSCP analysis of paraffin wax embedded tissues in a family with an atypical form of Fabry disease, **M310**
- Factor V gene**, Development of a rapid DNA screening procedure for the Factor V Leiden mutation, **M361**
- Factor V Leiden**, Postmortem diagnosis of Factor V Leiden from paraffin wax embedded tissue, **M180**
- Familial adenomatous polyposis**, The genetics of inherited colon cancer: *leader*, **M65**
- Fibroblasts**, Significantly reduced expression of the proteoglycan decorin in Alzheimer's disease fibroblasts, **M351**
- Flow cytometry**, Amphotericin B induced abnormalities in human platelets, **M301**
- Fluorescence in situ hybridisation**, Rapid differential diagnosis of myxoid liposarcoma by fluorescence in situ hybridisation on cytological preparations, **M308**
- Formalin fixed paraffin wax embedded sections**, Identification of *Candida* species in formalin fixed, paraffin wax embedded oral mucosa by sequencing of ribosomal DNA, **M23**
- Free radicals**, Role of free radicals and antioxidants in the pathogenesis of the inflammatory periodontal diseases: *review*, **M247**
- Galactosidase**, SSCP analysis of paraffin wax embedded tissues in a family with an atypical form of Fabry disease, **M310**
- Gastric lymphoma**, Sequence analysis of immunoglobulin variable region genes that encode autoantibodies expressed by lymphomas of mucosa associated lymphoid tissue, **M29**
- Gastrin**, Gastrointestinal hormone mRNA expression in human colonic adenocarcinomas, hepatic metastases and cell lines, **M159**
- Genetics**, The genetics of inherited colon cancer: *leader*, **M65**
- Gleason grade**, AgNOR quantity in needle biopsy specimens of prostatic adenocarcinomas: correlation with proliferation state, Gleason score, clinical stage, and DNA content, **M209**
- Glioblastomas**, Immunohistochemical detection of Ki67 antigen in formalin fixed, paraffin wax embedded sections: *correspondence*, **M182**
- Gliomas**  
 Accumulation of allelic losses on chromosome 10 in human gliomas at recurrence, **M218**  
 Differential expression of novH and CTGF in human glioma cell lines, **M91**
- Glycosylation**, Protein glycosylation in cancer biology: an overview: *leader*, **M126**
- Graft versus host disease**, Lymphocytes, cytokines and adhesion molecules in chronic graft versus host disease, **M225**
- Grave's disease**, Interphase ribosomal RNA cistron staining in thyroid epithelial cells in Grave's disease, Hashimoto's thyroiditis and benign and malignant tumours of the thyroid gland, **M240**
- Hashimoto's thyroiditis**, Interphase ribosomal RNA cistron staining in thyroid epithelial cells in Grave's disease, Hashimoto's thyroiditis and benign and malignant tumours of the thyroid gland, **M240**
- Herpes viruses**, Lymphotropic herpes virus (EBV, HHV-6, HHV-8) DNA sequences in HIV negative Castleman's disease, **M232**
- Heterogeneity**, Tumour heterogeneity: a problem in biopsy assessment of the proliferation index of oesophageal adenocarcinomas, **M61**
- Human papillomavirus**  
 Detection of human papillomavirus in vulval carcinoma using semi-nested PCR and restriction enzyme typing: a rapid and sensitive technique, **M236**  
 Human papilloma virus detection by in situ hybridisation signal amplification based on biotinylated tyramine deposition, **M340**
- IGF binding proteins**, Differential expression of novH and CTGF in human glioma cell lines, **M91**
- Immunoblotting**, Improved serodiagnosis of Lyme disease, **M80**
- Immunohistochemistry**  
 Accumulation of p53 protein in inverted transitional cell papilloma of the urinary bladder, **M43**  
 Combined non-isotopic in situ hybridisation and indirect immunohistochemical analysis of hormone production in the rat pituitary gland, **M57**  
 Expression of p53 in leukoplakia and squamous cell carcinoma of the oral mucosa: correlation with expression of Ki67, **M170**  
 Expression of type III collagen mRNA in renal biopsy specimens of patients with idiopathic membranous glomerulonephritis, **M40**  
 Gastrointestinal hormone mRNA expression in human colonic adenocarcinomas, hepatic metastases and cell lines, **M159**
- In situ end-labelling**, Simple method for pretreatment of tissue sections for the detection of apoptosis by in situ end-labelling and in situ nick translation, **M273**
- In situ hybridisation**  
 Combined non-isotopic in situ hybridisation and indirect immunohistochemical analysis of hormone production in the rat pituitary gland, **M57**  
 Distribution of CD44 messenger RNA in archival paraffin wax embedded tumours and normal tissues viewed by in situ hybridisation, **M147**  
 Expression of type III collagen mRNA in renal biopsy specimens of patients with idiopathic membranous glomerulonephritis, **M40**  
 Human papilloma virus detection by in situ hybridisation signal amplification based on biotinylated tyramine deposition, **M340**
- In situ nick translation**, Simple method for pretreatment of tissue sections for the detection of apoptosis by in situ end-labelling and in situ nick translation, **M273**
- In situ nucleic acid amplification**, Direct in situ nucleic acid amplification: control of artefact and use of labelled primers, **M345**
- Inflammatory periodontal diseases**, Role of free radicals and antioxidants in the pathogenesis of the inflammatory periodontal diseases: *review*, **M247**
- Insulin-like growth factors and binding proteins**, Insulin-like growth factors and IGF binding proteins in cyst fluid from patients with craniopharyngioma prior to intracavitary irradiation with <sup>90</sup>Yttrium and thereafter, **M51**
- Integrins**, Establishment and characterisation of two cell lines derived from a primary adenocarcinoma of the duodenum, **M33**
- Internet**  
 Molecular biology and the Internet: *leader*, **M136**  
 We're on the Web! *editorial*, **M125**
